First published in 1951, *Ships for Victory* chronicles the remarkable wartime program in America: the development of revolutionary construction methods; the upheavals in management, awarding of contracts and allocation of steel and other materials; the recruitment, training, housing and union activities of the workers; the crises, confusions and scandals that arose; and the role of shipbuilding within the total war effort. Paperback, 994 pages, illustrated.

B-214	FORGOTTEN HEROES OF WORLD WAR II by Thomas Simmon	\$7.00
--------------	---	---------------

World War II was the defining event of the Twentieth Century. For everyone it was a time of confusion and fear, destruction and death on a scale never before seen. Much has been written of the generals, campaigns and battles of the war, but it was young, ordinary American kids who held our freedom in their hands as they fought for liberty across the globe. *Forgotten Heroes of World War II* offers a personal understanding of what was demanded of these young heroes through the stories of rank-and-file individuals who served in the navy, marines, army, air corps, and merchant marine in all theaters of the war. Paperback, 256 pages.
